

Workshop: Containers on Supercomputers

Certificate of completion

This certifies that Aleksander Kalacun completed the training "Workshop: Containers on Supercomputers".

Training date	24 June 2025
Training duration	5 hours
Certificate number	202506-45
Certificate issue date	9 September; no year is printed in the original.

Competencies acquired

- Understanding the Slurm workload manager.
- Understanding environment modules and containers.
- Using existing Docker and Apptainer containers.
- Building custom Apptainer containers to run selected programs on a supercomputing cluster.
- Using different computing resources in environment modules and containers, including CPU cores, graphics accelerators, and nodes.

Signatories identified in the original

Marko Drobnjak, Chair of the EuroCC SLING Consortium Management Board.

Davor Sluga, Assistant at the Faculty of Computer and Information Science, University of Ljubljana.
